

**WARNING:** This product contains chemicals known to the state of California to cause cancer.

**CAUTIONS: KEEP OUT OF REACH OF CHILDREN.** Do not take internally. Use only with adequate ventilation. Avoid prolonged breathing of vapor. Avoid contact with skin, eyes and clothing. May cause eye injury. Keep away from heat, spark, open flame and other sources of ignition. Keep container closed when not in use. Contact with hot surfaces may produce toxic effects. Read Product Bulletin and MSDS. Contains Methylene Chloride (75-09-2), Trichloroethylene (79-01-6) and Methyl Methacrylate Monomer (80-62-6). Methylene Chloride and Trichloroethylene have been shown to cause cancer in laboratory animals. Risk to your health depends on level and duration of exposure.

#### **FIRST AID**

**Inhalation:** If ill effects from inhalation, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call physician.

**Eye or Skin Contact:** Flush with plenty of water for 15 minutes. If irritation persists, get medical attention.

**Ingestion:** If swallowed, do not induce vomiting. Contact physician immediately.

# ACRYLIC TAP the fantastic plastic place CEMENT

Free-Flowing  
**FAST-SETTING FORMULA**  
Solvent type bonding agent for strong, optically clear joints.

**Net 1 Quart** (32 fl oz)

Read **CAUTIONS** and  
health hazards on left side panel.

## TAP Plastics

#### **INSTRUCTIONS:**

TAP Acrylic Cement is an all-purpose, fast-setting solvent-type cement compounded especially for use on clear and colored acrylic sheets. It is generally used for edge gluing. It softens the surface of the plastic, literally welding the two surfaces together. For best results apply with a TAP Hypo-Applicator. Also bonds styrene, butyrate, PETG and polycarbonate to themselves.

Other ways to apply Acrylic Cement are by the Capillary Method, or the Soak Method (explained in TAP Product Bulletin 2). TAP Product Bulletin 2 (it's free) is available at all TAP locations or it can be downloaded from our web site: [tapplastics.com](http://tapplastics.com). Open the TAP web site and:

1. Click on PRODUCT INFORMATION.
2. Click on PRODUCT BULLETINS.
3. Click on PLASTIC SHEETS CARE/CEMENTING to download the information.
