

DISTRIBUIDORA DE PRODUCTOS®  
**PLASTIGLAS**  
S.A. DE C.V.

The second graph is for color 2422 in 0.118" & 0.177" where the products do the same:

Based on our internal tests and using ASTM D 1003 as reference, color 2422 amber has 85.8% of light transmittance in 0.118" thickness.

Kind Regards,

Mauricio Medina
