ACRYLITE® - Sheets/Rods/Tubes

Page 1 of 12

1. Product and Company Identification

1.1. Product identifier

Trade name : ACRYLITE® - Sheets/Rods/Tubes

1.2. Recommended use of the chemical and restrictions on use

Recommended use(s): building glazing. light advertising. furniture. trade-fair booth design. displays. decoration. Industrial use

Non-recommended use(s): None known.

1.3. Details of the supplier of the safety data sheet

Evonik CYRO LLC 299 Jefferson Road Parsippany, NJ 07054-0677 USA

973-929-8000 973-929-8040 (fax)

1-973-929-8060 (Product Information Number)
1-800-424-9300 (24 Hour Emergency Number, CHEMTREC)

2. Hazards identification

2.1. Classification of the substance or mixture

This article is not classified according to GHS

Classification according to Regulation 29CFR 1910.1200

This product is not considered to be a hazardous substance or mixture when classified in accordance with Regulation 29 CFR 1910.1200 (US GHS).

2.2. Label elements

This article is not classified according to GHS

2.3. Other hazards

None known

3. Composition/information on ingredients

3.1. Substances

3.2. Mixtures

Hazardous Ingredients

Component	CAS-No.	Content	Hazard class / Hazard category / Hazard

4. First-aid measures

4.1. Description of first aid measures

General advice No special measures are required.

Inhalation No specific treatment is necessary since this material is not likely to be

hazardous by inhalation.

Skin contact No specific treatment is necessary since this material is not likely to be

hazardous.

Eye contact If mechanical irritation occurs flush eyes thoroughly with a large amount of

water, consult a physician if irritation persists. (possible during machining

processes)

Ingestion Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

None known

4.3. Indication of any immediate medical attention and special treatment needed

no

5. Fire-fighting measures

5.1. Extinguishing media

Suitable extinguishing media water spray, foam, dry chemical, carbon dioxide

Unsuitable extinguishing media full water jet

5.2. Specific hazards arising from the chemical

In case of fire partly flammable, partly harmful vapours, which are irritating to the eyes and respiratory system, may be formed on thermal decomposition.

5.3. Special protective equipment and precautions for fire-fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Use water spray to cool containers exposed to fire.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Wear protective gloves and eye protectors.

6.2. Environmental precautions

Should not be released into the environment., Collect and dispose of unused residues.

OS HA 1910.1200

Revision Date: 06/23/2015 Print Date: 01/10/2017

Version: 2.3

Page 3 of 12

6.3. Methods and materials for containment and cleaning up

Collect material and place in a disposal container. Obey relevant local, state, provincial and federal laws and regulations.

6.4. Reference to other sections

For personal protection see section 8.

7. Handling and storage

7.1. Precautions for safe handling

Safe handling advice Avoid dust formation. During thermoplastic processing, vapours of the

decomposition products referred to in section 10 are given off, which are technically unavoidable (Observe exposure threshold limit values). During

thermal processing and/or machining local exhaust ventilation at

processing machines is necessary.

Advice on protection against fire

and explosion

Take precautionary measures against static discharges. In the event of

fire, cool the endangered product with water.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage areas

and containers

Storage: dry.

8. Exposure controls/personal protection

8.1. Control parameters

Exposure Limit Information

ACRYLIC COPOLYMER trade secret

Occupational Exposure Values		Remark(s):
ACGIH TLV-TWA		not established
ACGIH TLV-STEL		not established
OSHA PEL-TWA		not established
OSHA PEL-STEL		not established
NIOSH REL-TWA		not established
NIOSH REL-STEL		not established

8.2. Exposure controls

Engineering controls

If use operations generate dust, use adequate ventilation.

8.3. Personal protective equipment

Protective measures To identify additional Personal Protective Equipment (PPE) requirements,

it is recommended that a hazard assessment in accordance with the

OSHA 1910.1200

Revision Date: 06/23/2015 Print Date: 01/10/2017

Version: 2.3

Page 4 of 12

OSHA PPE Standard (29CFR1910.132) be conducted before using this

product.

Hygiene measures Follow the usual good standards of occupational hygiene.

Respiratory protection A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2

requirements must be followed whenever workplace conditions warrant a

respirator's use.

Hand protection protective gloves against mechanical risks according to EN 388

General information For each work-place a suitable glove type has to be selected.

Eye protection goggles for machining operations

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Colour transparent Form sheets Odor odourless

Odour Threshold no data available

physical state solid

Melting point/freezing point Softening Temperature

ca. 100 °C ca. 210 °F

Boiling point/range not applicable

Flash point > 250 °C (ASTM D 1929-68)

> 480 °F (ASTM D 1929-68)

Evaporation rate not applicable

Ignition temperature no data available

Autoignition temperature > 400 °C

> 750 °F

Decomposition temperature This material is considered stable under specified conditions of storage, shipment

and/or use.

Depolymerization begins at 250 °C / 482 °F.

Impact Sensitivity no data available

OSHA 1910.1200

ACRYLITE® - Sheets/Rods/Tubes

Page 5 of 12

Lower explosion limit not applicable

Upper explosion limit not applicable

Flammability (solid, gas) no data available

Vapour pressure not applicable

Density ca. 1.20 g/cm3 at 20 °C / 68 °F

Relative density no data available

Bulk density no data available

Relative vapour density (related

to air)

not applicable

Solubility in water insoluble

Solubility (quantitative) no data available

Solubility (qualitative) in e.g. esters, ketones and chlorinated hydrocarbons: readily soluble

pH not applicable

n-Octanol/water partition

coefficient

not applicable

Viscosity (dynamic) not applicable

Viscosity (kinematic) not applicable

9.2. Other information

none

10. Stability and reactivity

10.1. Reactivity

see section 10.2.

10.2. Chemical stability

This material is considered stable under specified conditions of storage, shipment and/or use. Depolymerization begins at 250 °C / 482 °F.

10.3. Possibility of hazardous reactions

No dangerous reactions known.

10.4. Conditions to avoid

High temperature.

10.5. Incompatible materials

None reasonably foreseeable.

10.6. Hazardous decomposition products

No hazardous decomposition products known.

11. Toxicological information

11.1. Information on toxicological effects

toxicokinetics, metabolism and

distribution

The substance is practically not bioavailable

(structure-activity-relationships)

(analogy)

Acute Oral Toxicity

no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

CMR assessment CMR: no

no specific test data available (structure-activity-relationships)

(analogy)

Specific Target Organ Toxicity -

Single exposure

no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

Specific Target Organ Toxicity -

Repeated exposure

no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

General information The product has not been tested toxicologically.

When handled and used as directed the product will not cause hazardous effects to health according to studies on similar products and practical

experience.

The fine particles contained in the product may cause mechanical

irritations of the skin, eyes and mucous membranes.

Avoid skin and eye contact and inhalation of product dust/aerosols.

OSHA 1910.1200

Revision Date: 06/23/2015 Print Date: 01/10/2017

Version: 2.3

Page 8 of 12

12. Ecological information

12.1. Toxicity

Hazardous to the aquatic

environment

no specific test data available no evidence for hazardous properties (structure-activity-relationships)

(analogy)

12.2. Persistence and degradability

Persistence and degradability no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

12.3. Bioaccumulative potential

Bioaccumulation no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

12.4. Mobility in soil

Mobility no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment PBT: no

vPvB: no

12.6. Other adverse effects

General Information The product has not been tested ecotoxicologically. On the basis of the

products consistency as well as its low water solubility a bioavailability is unlikely. Studies on products with similar composition confirm this assumption. Prevent substance from entering soil, natural bodies of water

and sewer systems.

13. Disposal considerations

13.1. Waste treatment methods

Product Waste must be disposed of in accordance with federal, state and local

regulations. Incineration is the preferred method. CYRO encourages the recycle, recovery and reuse of materials, where permitted, as an alternate

to disposal as a waste.

Uncleaned packaging Uncontaminated packaging may be taken for recycling.

14. Transport information

US DOT Hazard Classification

Not subject to the regulations on dangerous goods.

Canadian TDG Classification

Not subject to the regulations on dangerous goods.

Shipment by sea IMDG/GGVSee

Not dangerous according to transport regulations.

Air transport ICAO/IATA

Not dangerous according to transport regulations.

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
