

Roll, 1/2" x 20 foot x 20 mil Clear Acrylic Tape

A transparent solid acrylic substrate coated both sides with a clear acrylic adhesive. Primarily designed for high energy surface applications such as metal or glass or where a clear double-sided tape is desired.

Features

- Impact resistant
- Conformable
- Excellent chemical and solvent resistance
- Good Weatherability

Technical Data

Initial Adhesion	6.71 lbs/inch
24 hour Adhesion	8.4 lbs/inch
Adhesive	Clear Modified Acrylic
Density	65 lbs./ft
Tensile Strength	125 lbs./in
Hardness	40HB
Elongation	900%
Temperature Range	
Long Term	-20° F to +200° F
Short Term	-20° F to +200° F

Application: All surfaces to be bonded should be dry, clean and free of dust and grease. Avoid touching exposed side of adhesive. Sufficient pressure should be applied evenly to ensure proper adhesion.

NOTE: The above data should be considered representative only and should not be used for specification purposes. The above mentioned data represent the average obtained in our laboratory. Suggestion for use and final results on our best technical experiences but cannot be intended as our commitment or liability. The user must determine the suitability of this product and method of application for each specific use.
