

REPLACETONE

- Nonflammable
- Minimizes health hazards (no solvents)
- Easy disposal (biodegradable)
- Lasts longer (low volatility)

DIRECTIONS:

Replacetone requires vigorous agitation to remove resin from brushes, rollers, hands, etc. Effective only on uncured resin.

Suitable for polyester and epoxy resins.

Air dry tools before reusing if water contamination would be a problem.

Replacetone emulsifies (does not dissolve) resins. After resin separates to the bottom of cleaning container, pour off non-emulsified Replacetone and use again.

Nonvolatile • Nonflammable • Biodegradable

REPLACETONE

Cleans Resin from Tools and Hands

Replaces Acetone and MEK Solvent

Read Cautions on Right Panel.
