1. Product and Company Identification

1.1. Product identifier

Trade name: ACRYLITE® - Sheets/Rods/Tubes

1.2. Recommended use of the chemical and restrictions on use

Recommended use(s): building glazing, light advertising, furniture, trade-fair booth design, displays, decoration, Industrial use

Non-recommended use(s): None known.

1.3. Details of the supplier of the safety data sheet

Evonik CYRO LLC
299 Jefferson Road
Parsippany, NJ 07054-0677
USA

973-929-8000
973-929-8040 (fax)

1-973-929-8060 (Product Information Number)
1-800-424-9300 (24 Hour Emergency Number, CHEMTREC)

2. Hazards identification

2.1. Classification of the substance or mixture

This article is not classified according to GHS

Classification according to Regulation 29CFR 1910.1200

This product is not considered to be a hazardous substance or mixture when classified in accordance with Regulation 29 CFR 1910.1200 (US GHS).

2.2. Label elements

This article is not classified according to GHS

2.3. Other hazards

None known

3. Composition/information on ingredients

3.1. Substances

---

3.2. Mixtures

Hazardous Ingredients

4. First-aid measures

4.1. Description of first aid measures

General advice
No special measures are required.

Inhalation
No specific treatment is necessary since this material is not likely to be hazardous by inhalation.

Skin contact
No specific treatment is necessary since this material is not likely to be hazardous.

Eye contact
If mechanical irritation occurs flush eyes thoroughly with a large amount of water, consult a physician if irritation persists. (possible during machining processes)

Ingestion
Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

None known

4.3. Indication of any immediate medical attention and special treatment needed

no

5. Fire-fighting measures

5.1. Extinguishing media

Suitable extinguishing media
water spray, foam, dry chemical, carbon dioxide

Unsuitable extinguishing media
full water jet

5.2. Specific hazards arising from the chemical

In case of fire partly flammable, partly harmful vapours, which are irritating to the eyes and respiratory system, may be formed on thermal decomposition.

5.3. Special protective equipment and precautions for fire-fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Use water spray to cool containers exposed to fire.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Wear protective gloves and eye protectors.

6.2. Environmental precautions

Should not be released into the environment., Collect and dispose of unused residues.
6.3. Methods and materials for containment and cleaning up

Collect material and place in a disposal container. Obey relevant local, state, provincial and federal laws and regulations.

6.4. Reference to other sections

For personal protection see section 8.

7. Handling and storage

7.1. Precautions for safe handling

Safe handling advice
Avoid dust formation. During thermoplastic processing, vapours of the decomposition products referred to in section 10 are given off, which are technically unavoidable (Observe exposure threshold limit values). During thermal processing and/or machining local exhaust ventilation at processing machines is necessary.

Advice on protection against fire and explosion
Take precautionary measures against static discharges. In the event of fire, cool the endangered product with water.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers
Storage: dry.

8. Exposure controls/personal protection

8.1. Control parameters

Exposure Limit Information

ACRYLIC COPOLYMER trade secret

</tbody>
</table>

8.2. Exposure controls

Engineering controls
If use operations generate dust, use adequate ventilation.

8.3. Personal protective equipment

Protective measures
To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the
OSHA PPE Standard (29CFR1910.132) be conducted before using this product.

Hygiene measures

Follow the usual good standards of occupational hygiene.

Respiratory protection

A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator’s use.

Hand protection

protective gloves against mechanical risks according to EN 388

General information

For each work-place a suitable glove type has to be selected.

Eye protection

goggles for machining operations

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Colour

transparent

Form

sheets

Odor

odourless

Odour Threshold

no data available

physical state

solid

Melting point/freezing point

Softening Temperature

c. 100 °C

c. 210 °F

Boiling point/range

not applicable

Flash point

> 250 °C (ASTM D 1929-68)

> 480 °F (ASTM D 1929-68)

Evaporation rate

not applicable

Ignition temperature

no data available

Autoignition temperature

> 400 °C

> 750 °F

 Decomposition temperature

This material is considered stable under specified conditions of storage, shipment and/or use.

Depolymerization begins at 250 °C / 482 °F.

Impact Sensitivity

no data available
Lower explosion limit: not applicable

Upper explosion limit: not applicable

Flammability (solid, gas): no data available

Vapour pressure: not applicable

Density: ca. 1.20 g/cm³ at 20 °C / 68 °F

Relative density: no data available

Bulk density: no data available

Relative vapour density (related to air): not applicable

Solubility in water: insoluble

Solubility (quantitative): no data available

Solubility (qualitative): in e.g. esters, ketones and chlorinated hydrocarbons: readily soluble

pH: not applicable

n-Octanol/water partition coefficient: not applicable

Viscosity (dynamic): not applicable

Viscosity (kinematic): not applicable

9.2. Other information

none
10. Stability and reactivity

10.1. Reactivity

see section 10.2.

10.2. Chemical stability

This material is considered stable under specified conditions of storage, shipment and/or use. Depolymerization begins at 250 °C / 482 °F.

10.3. Possibility of hazardous reactions

No dangerous reactions known.

10.4. Conditions to avoid

High temperature.

10.5. Incompatible materials

None reasonably foreseeable.

10.6. Hazardous decomposition products

No hazardous decomposition products known.

11. Toxicological information

11.1. Information on toxicological effects

toxicokinetics, metabolism and distribution

The substance is practically not bioavailable (structure-activity-relationships)

(analogy)

Acute Oral Toxicity

no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

Caustic burning / irritation of skin

no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

Serious eye damage/eye irritation

no specific test data available

no evidence for hazardous properties (structure-activity-relationships)

(analogy)

Respiratory/skin sensitization
no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

Aspiration hazard

no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

Mutagenicity assessment

no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

Carcinogenicity

no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

Reprotoxicity / teratogenicity

no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

CMR assessment

CMR: no
no specific test data available
(structure-activity-relationships)
(analogy)

Specific Target Organ Toxicity - Single exposure

no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

Specific Target Organ Toxicity - Repeated exposure

no specific test data available
no evidence for hazardous properties
(structure-activity-relationships)
(analogy)

General information

The product has not been tested toxicologically.
When handled and used as directed the product will not cause hazardous
effects to health according to studies on similar products and practical
experience.
The fine particles contained in the product may cause mechanical
irritations of the skin, eyes and mucous membranes.
Avoid skin and eye contact and inhalation of product dust/aerosols.
12. Ecological information

12.1. Toxicity

Hazardous to the aquatic environment  no specific test data available
no evidence for hazardous properties (structure-activity-relationships)
(analogy)

12.2. Persistence and degradability

Persistence and degradability  no specific test data available
no evidence for hazardous properties (structure-activity-relationships)
(analogy)

12.3. Bioaccumulative potential

Bioaccumulation  no specific test data available
no evidence for hazardous properties (structure-activity-relationships)
(analogy)

12.4. Mobility in soil

Mobility  no specific test data available
no evidence for hazardous properties (structure-activity-relationships)
(analogy)

12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment  PBT: no
vPvB: no

12.6. Other adverse effects

General Information  The product has not been tested ecotoxicologically. On the basis of the products consistency as well as its low water solubility a bioavailability is unlikely. Studies on products with similar composition confirm this assumption. Prevent substance from entering soil, natural bodies of water and sewer systems.

13. Disposal considerations

13.1. Waste treatment methods

Product  Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method. CYRO encourages the recycle, recovery and reuse of materials, where permitted, as an alternate to disposal as a waste.

Uncleaned packaging  Uncontaminated packaging may be taken for recycling.
14. Transport information

**US DOT Hazard Classification**
Not subject to the regulations on dangerous goods.

**Canadian TDG Classification**
Not subject to the regulations on dangerous goods.

**Shipment by sea IMDG/GGVSee**
Not dangerous according to transport regulations.

**Air transport ICAO/IATA**
Not dangerous according to transport regulations.

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
