ACRYLITE® - Resist - Sheets/Tubes

Page 1 of 12

## 1. Product and Company Identification

### 1.1. Product identifier

Trade name : ACRYLITE® - Resist - Sheets/Tubes

### 1.2. Recommended use of the chemical and restrictions on use

Recommended use(s): building glazing. light advertising. furniture. trade-fair booth design. displays. decoration. Industrial use

Non-recommended use(s): None known.

### 1.3. Details of the supplier of the safety data sheet

Evonik CYRO LLC  
299 Jefferson Road  
Parsippany, NJ 07054-0677  
USA

973-929-8000  
973-929-8040 (fax)

1-973-929-8060 (Product Information Number)  
1-800-424-9300 (24 Hour Emergency Number, CHEMTREC)

## 2. Hazards identification

### 2.1. Classification of the substance or mixture

This article is not classified according to GHS

#### Classification according to Regulation 29CFR 1910.1200

This product is not considered to be a hazardous substance or mixture when classified in accordance with Regulation 29 CFR 1910.1200 (US GHS).

### 2.2. Label elements

This article is not classified according to GHS

### 2.3. Other hazards

None known

## 3. Composition/information on ingredients

### 3.1. Substances

---

### 3.2. Mixtures

#### Hazardous Ingredients

Component	CAS-No.	Content	Hazard class / Hazard category / Hazard statement
-----------	---------	---------	---

-------------------	--------------	--------	----------------

## 4. First-aid measures

### 4.1. Description of first aid measures

General advice	No special measures are required.
Inhalation	No specific treatment is necessary since this material is not likely to be hazardous by inhalation.
Skin contact	No specific treatment is necessary since this material is not likely to be hazardous.
Eye contact	If mechanical irritation occurs flush eyes thoroughly with a large amount of water, consult a physician if irritation persists. (possible during machining processes)
Ingestion	Ingestion is not considered a potential route of exposure.

### 4.2. Most important symptoms and effects, both acute and delayed

None known

### 4.3. Indication of any immediate medical attention and special treatment needed

no

## 5. Fire-fighting measures

### 5.1. Extinguishing media

Suitable extinguishing media	water spray, foam, dry chemical, carbon dioxide
Unsuitable extinguishing media	full water jet

### 5.2. Specific hazards arising from the chemical

In case of fire partly flammable, partly harmful vapours, which are irritating to the eyes and respiratory system, may be formed on thermal decomposition.

### 5.3. Special protective equipment and precautions for fire-fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Use water spray to cool containers exposed to fire.

## 6. Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Wear protective gloves and eye protectors.

### 6.2. Environmental precautions

# Safety Data Sheet

OSHA 1910.1200  
Revision Date: 06/23/2015  
Print Date: 08/08/2018  
Version: 2.0

Should not be released into the environment., Collect and dispose of unused residues.

### 6.3. Methods and materials for containment and cleaning up

Collect material and place in a disposal container. Obey relevant local, state, provincial and federal laws and regulations.

### 6.4. Reference to other sections

For personal protection see section 8.

---

## 7. Handling and storage

### 7.1. Precautions for safe handling

Safe handling advice                      Avoid dust formation. During thermoplastic processing, vapours of the decomposition products referred to in section 10 are given off, which are technically unavoidable (Observe exposure threshold limit values). During thermal processing and/or machining local exhaust ventilation at processing machines is necessary.

Advice on protection against fire and explosion                      Take precautionary measures against static discharges. In the event of fire, cool the endangered product with water.

### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers                      Storage: dry.

---

## 8. Exposure controls/personal protection

### 8.1. Control parameters

#### Exposure Limit Information

**ACRYLIC COPOLYMER** trade secret

#### Occupational Exposure Values

ACGIH TLV-TWA	
ACGIH TLV-STEL	
OSHA PEL-TWA	
OSHA PEL-STEL	
NIOSH REL-TWA	
NIOSH REL-STEL	

#### Remark(s):

not established
not established

Protective measures	To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132) be conducted before using this product.
Hygiene measures	Follow the usual good standards of occupational hygiene.
Respiratory protection	A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.
Hand protection	protective gloves against mechanical risks according to EN 388
General information	For each work-place a suitable glove type has to be selected.
Eye protection	goggles for machining operations

## 9. Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Colour	transparent
Form	sheets
Odor	odourless
Odour Threshold	no data available
physical state	solid
Melting point/freezing point	Softening Temperature ca. 100 °C ca. 210 °F
Boiling point/range	not applicable
Flash point	> 250 °C (ASTM D 1929-68) > 480 °F (ASTM D 1929-68)
Evaporation rate	not applicable
Ignition temperature	no data available
Autoignition temperature	> 400 °C > 750 °F
Decomposition temperature	This material is considered stable under specified conditions of storage, shipment and/or use.  Depolymerization begins at 250 °C / 482 °F.
Impact Sensitivity	no data available

ACRYLITE® - Resist - Sheets/Tubes

Page 5 of 12

Lower explosion limit	not applicable
Upper explosion limit	not applicable
Flammability (solid, gas)	no data available
Vapour pressure	not applicable
Density	ca. 1.20 g/cm <sup>3</sup> at 20 °C / 68 °F
Relative density	no data available
Bulk density	no data available
Relative vapour density (related to air)	not applicable
Solubility in water	insoluble
Solubility (quantitative)	no data available
Solubility (qualitative)	in e.g. esters, ketones and chlorinated hydrocarbons: readily soluble
pH	not applicable
n-Octanol/water partition coefficient	not applicable
Viscosity (dynamic)	not applicable
Viscosity (kinematic)	not applicable

## 9.2. Other information

none

Page 6 of 12

## 10. Stability and reactivity

### 10.1. Reactivity

see section 10.2.

### 10.2. Chemical stability

This material is considered stable under specified conditions of storage, shipment and/or use. Depolymerization begins at 250 °C / 482 °F.

### 10.3. Possibility of hazardous reactions

No dangerous reactions known.

### 10.4. Conditions to avoid

High temperature.

### 10.5. Incompatible materials

None reasonably foreseeable.

### 10.6. Hazardous decomposition products

No hazardous decomposition products known.

## 11. Toxicological information

### 11.1. Information on toxicological effects

toxicokinetics, metabolism and distribution

The substance is practically not bioavailable (structure-activity-relationships) (analogy)

Acute Oral Toxicity

no specific test data available  
no evidence for hazardous properties (structure-activity-relationships) (analogy)

Caustic burning / irritation of skin

no specific test data available  
no evidence for hazardous properties (structure-activity-relationships) (analogy)

Serious eye damage/eye irritation

no specific test data available  
no evidence for hazardous properties (structure-activity-relationships) (analogy)

Respiratory/skin sensitization

	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
Aspiration hazard	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
Mutagenicity assessment	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
Carcinogenicity	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
Reprotoxicity / teratogenicity	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
CMR assessment	CMR: no no specific test data available (structure-activity-relationships) (analogy)
Specific Target Organ Toxicity - Single exposure	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
Specific Target Organ Toxicity - Repeated exposure	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
General information	The product has not been tested toxicologically. When handled and used as directed the product will not cause hazardous effects to health according to studies on similar products and practical experience. The fine particles contained in the product may cause mechanical irritations of the skin, eyes and mucous membranes. Avoid skin and eye contact and inhalation of product dust/aerosols.

## 12. Ecological information

### 12.1. Toxicity

Hazardous to the aquatic environment	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
--------------------------------------	--

### 12.2. Persistence and degradability

Persistence and degradability	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
-------------------------------	--

### 12.3. Bioaccumulative potential

Bioaccumulation	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
-----------------	--

### 12.4. Mobility in soil

Mobility	no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)
----------	--

### 12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment	PBT: no vPvB: no
-------------------------	---------------------

### 12.6. Other adverse effects

General Information	The product has not been tested ecotoxicologically. On the basis of the products consistency as well as its low water solubility a bioavailability is unlikely. Studies on products with similar composition confirm this assumption. Prevent substance from entering soil, natural bodies of water and sewer systems.
---------------------	--

## 13. Disposal considerations

### 13.1. Waste treatment methods

Product	Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method. CYRO encourages the recycle, recovery and reuse of materials, where permitted, as an alternate to disposal as a waste.
Uncleaned packaging	Uncontaminated packaging may be taken for recycling.

## 14. Transport information

### US DOT Hazard Classification

Not subject to the regulations on dangerous goods.

### Canadian TDG Classification

Not subject to the regulations on dangerous goods.

### Shipment by sea IMDG/GGVSee

Not dangerous according to transport regulations.

### Air transport ICAO/IATA

Not dangerous according to transport regulations.

## 15. Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
